How To

Start a New Inspection on the App

This How To article explains how to start a new inspection on the PDspect App.

For a complete list of available How To documents visit the Support section of our website: <http://www.pdspect.com/support/index.php>

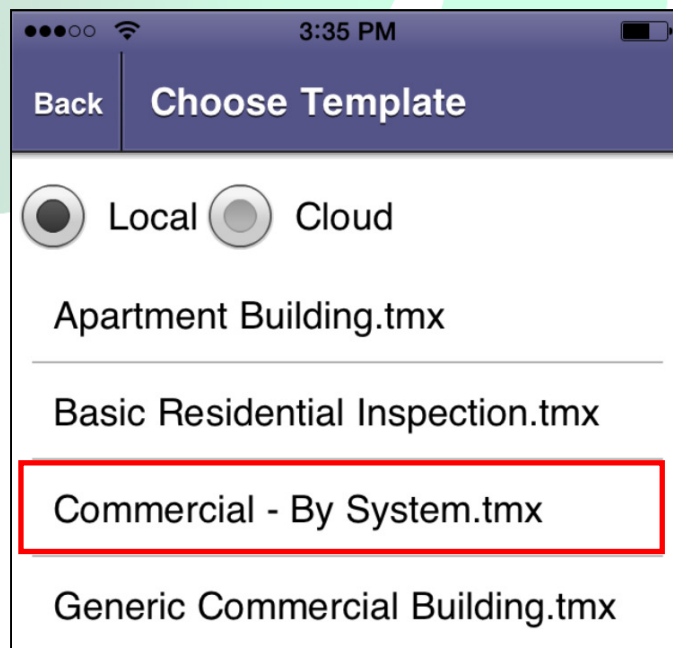

HOW TO: START A NEW INSPECTION ON THE APP

This document will walk you through how to start a new inspection on the PDspect App.

1. The first step is to tap on 'New' on the opening screen of the app.

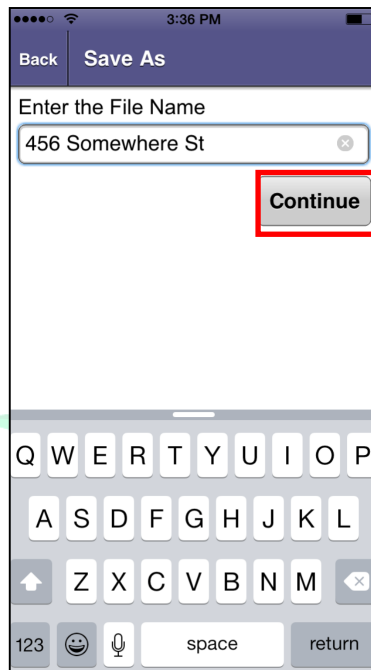

2. Next, the 'Choose Template' screen appears. Here you can select a template from the 'Local' device or your 'Cloud' drive. To select a template, simply tap on it. Let's tap on the 'Commercial - By System.tmx' template from the 'Local' device.

HOW TO: START A NEW INSPECTION ON THE APP

- Next, the 'Save As' screen appears. This is where you give your inspection file a name. Tap in the entry box to enter the name. Tap 'Continue' when finished.

- You have now started a new inspection and can begin entering information.
